

Power hungry geysers. Bulbs that gulp down energy greedily. Homes and offices that fail the energy-efficiency test. These add to the black scenario of an energy-starved world.

Solar products are both economically viable and highly energy-efficient. They not only offer you valuable savings on your electricity bills month after month, but also save the country valuable power. Because every watt saved is a watt richly earned.

Yes, the brighter, ecologically-aware minds are discovering the many unbeatable advantages of going solar with Tata BP Solar, India's largest 100% Solar Company.

Isn't it time you did too?

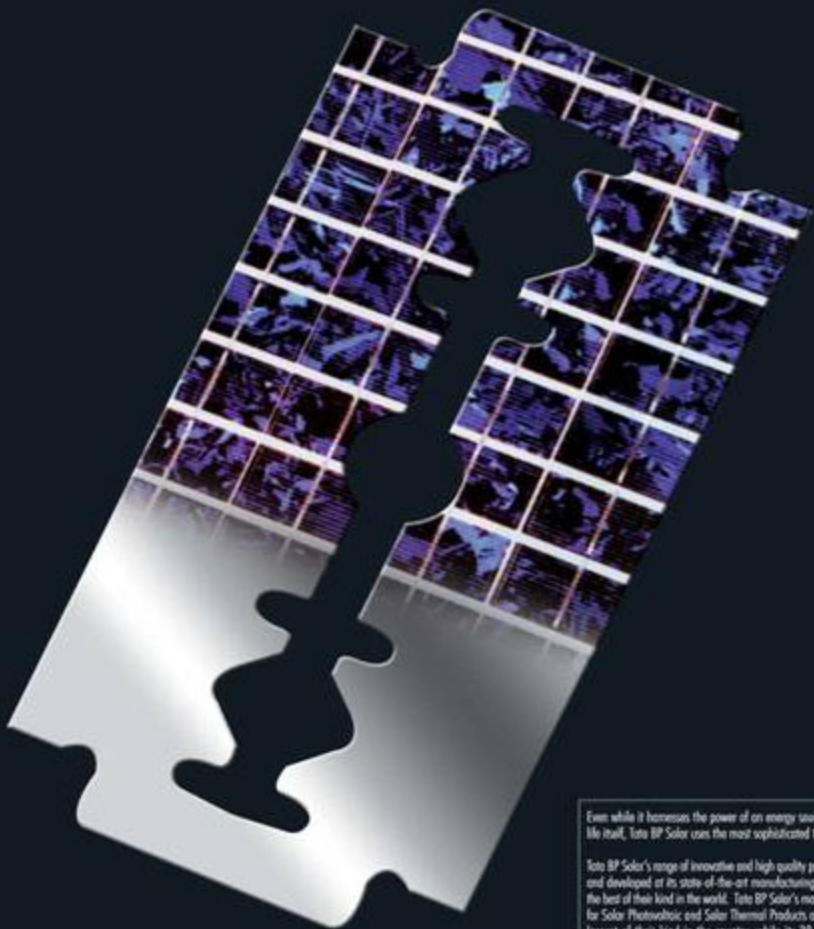

Innovative Ideas. Cutting-edge Technology

To cut down on your electricity bills

Concerned about dwindling forests?
Switch over to Solar. Tata BP Solar.

Trees being cut for firewood. Large, hydroelectric projects eating into forests. Pollution and environmental degradation causing them irreparable damage... Yes, conventional energy sources have pushed our world on the brink of ecological disaster.

Every right-minded individual is looking at non-conventional energy sources. Clean, green and renewable energy, which can heat water, cook food, light up homes and even power industries, without harming the environment in any way.

The smarter ones of course, are looking at Tata BP Solar, India's largest 100% Solar Company.
