

If only sweeping the environment clean  
of pollutants was this easy

---

Burning fossil fuels release many harmful pollutants into the atmosphere, like Carbon Dioxide, Sulfur Dioxide and Nitrogen Oxide. These do irreparable damage to the environment.

Do your bit to keep environmental pollution in check. Switch over to clean, renewable energy, like Solar Energy. And breathe easy! We are doing our bit by helping usher in a whole new era of responsible and disruptive progress.

**TATA BP SOLAR INDIA LIMITED**

If only healing the environment was this easy

---

Industries belching smoke. Vehicles emitting toxic fumes. The mindless cutting down of trees and forests. Harmful chemicals poisoning the air, the rivers, the soil... The environment is hurting.

Do your bit to heal the environment, switch over to clean, green, renewable energy, like Solar Energy. We are doing our bit by helping usher in a whole new era of responsible and undistruptive progress.

Issued in the interest of the environment, by the 100% Solar Company

If only recharging the environment was this easy

---

Conserving the environment is a long, arduous and challenging task. It demands that each one of us become consciously energy efficient, help control pollution, protect natural resources....

Do your bit to recharge the environment. Switch over to clean, renewable energy, like Solar Energy. We are doing our bit by helping usher in a whole new era of responsible and undistruptive progress.
